

## Mysql dump schema or data only

1. Dumping the database structure for all tables with no data  
`mysqldump -d -u someuser -p mydatabase`  
`mysqldump --no-data -u someuser -p mydatabase`  
`mysqldump --no-data -u someuser -papples mydatabase`
2. Dumping the database data only  
`mysqldump --no-create-info -u someuser -p mydatabase`
3. Deleting records before a certain date  
`DELETE FROM table WHERE date < '2013-12-24 10:00:00';`

註：黃底為指令

紅字為使用者可替代參數
